

Smartstore App

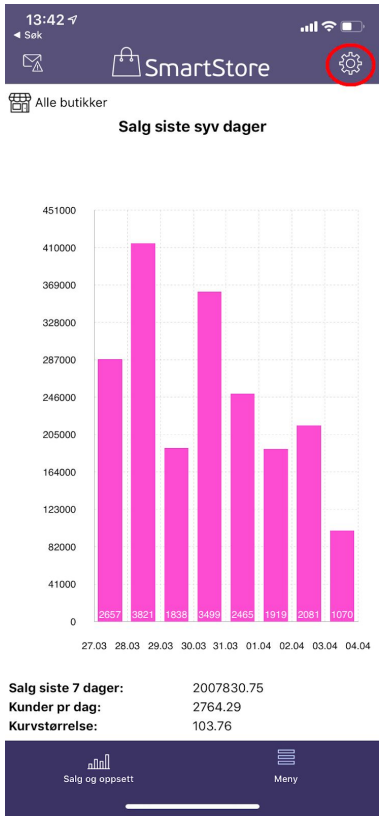

How to add a network label printer

v2019-04-04

Prerequisites:

- Make sure you have the latest version of the Smartstore App from App Store.
- Make sure you are connected to the same network as the label printer.

1.
Log in to the Smartstore App and select the settings cog wheel in the upper right corner.

4.
The Smartstore App will search for network printers.

5.
Select the network printer. Note that the name/address will vary depending on the network architecture.

6.
The selected printer will be indicated by a check mark. Also make sure to select the correct label type from the lower list. Note that the label size will vary depending on the printer type.
